

Accident Insurance

Because Accidents Happen

An accident can happen to anyone, at any time. When employees are able to protect their finances, even when unexpected accidents happen, they can worry less and focus more on what's important. That's why we offer the voluntary benefits employees need to help provide financial protection against the unexpected. So when accidents happen, our accident insurance helps with out-of-pocket costs major medical insurance won't cover, whether it's a minor injury or something more severe.

Offer More Protection with Accident Insurance

Our supplemental accident insurance works side-by-side with major medical insurance to help cover injuries and treatments due to a covered accident. It assists with recovery costs, including those accrued from treatments such as acupuncture, chiropractic, mental health, and much more, accelerating their paths to feeling better. A flexible option that can help strengthen a benefits package, it allows you to customize the plan design at the covered condition level. This tailored approach helps you better meet the needs of each employee.

Accident Insurance Highlights

Added benefits available, including benefits for mental health, acupuncture/chiropractic, and observation

Insurance for individuals and families

Can match and improve on an existing plan design

Easy payroll-deduction premiums

Ability to tailor the plan design at the covered condition level

Streamlined billing and self-administration without the need to reconcile at the policy level

Let us do the lifting. We save valuable employer and broker time by handling reconciliation and by offering simplified and streamlined billing, freeing up time to focus on your business. Plus, employees are less likely to encounter issues during claims.
